80 m / 50 g

RECOMMENDED NEEDLE SIZE
4 mm

KNITTING TENSION
18 sts × 24 rows = 10 cm

PACK
50 g balls

STUDIO DONEGAL WOOL · SPUN IN COUNTY DONEGAL, IRELAND

Donegal Aran Tweed

The original tweed wool, spun in Donegal for more than 100 years.

Product Information

Donegal Aran Tweed is the signature Irish tweed wool, spun in Kilcar for more than 100 years. It incorporates old traditions, passed on from generation to generation in the area, such as the large distinctive coloured flecks and the woollen spun method.

It also fulfils modern requirements of being a finer and softer blend of wool. The thin and thick alternation within the yarn and the large flecks throughout the thread all reflect its homespun yarn ancestors. It has a rustic appearance and a slight roughness, but it softens with blocking and regular wear.

Blocking gives a more cohesive look and also covers up minor tension differences, making it ideal for beginners. Darning the ends before blocking is recommended. This knitting wool is recommended for second layer garments and home accessories.

Donegal Aran Tweed Colours

The large tweedy flecks indissociably characterise the Donegal Aran Tweed yarn.

Due to the unique production techniques, the multicolour flecks stand out but still maintain strong thread cohesion. These colours are inspired by the beautiful Donegal landscape and are not shy of using 3–4, or even up to 7, different base colours within one yarn.
